Doctor: No, it's just a routine procedure. Also, I see a couple of cavities.

Patient: That's not great to hear.

Doctor: Just two cavities, and they don't look too bad. We'll take the X-ray to check if there's anything between your teeth.

Patient: Okay, I understand.

Doctor: Everything else looks fine. I don't see any more decay.

Patient: That's good news.

Doctor: We'll treat the two cavities and do a scaling.
